maxell

Noise Cancellation Headphone

(HP/NC-II)

- Eliminates up to 95% of sounds that interfere with your listening pleasure
- Enhanced audibility of distinct tones for a truer audio representation
- Reduces distortion resulting from over-amplification
- Ideal for home and travel, especially airplanes
- Comfortable, lightweight, adjustable, collapsible
- Single entry cord
- Travel pouch included

Noise Cancellation Headphone

(HP/NC-II)

Portable Stereo Headphone System
Compatible with Any Portable Audio Device

The Newest Advance in Electronic Technology

Microphones in the headphone detect ambient noise that is interfering with your music. Information from the microphones is fed to the audio enhancer pack where it is analyzed and a precise active noise cancellation wave is generated. When this "anti-noise" wave meets the unwanted noise, the noise is reduced and your music comes through loud and clear.

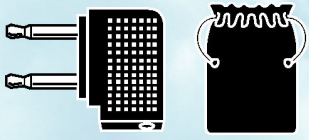
Take Your Audio Portable to the Max

Now you can get totally awesome sound from your portable radio, tape player or CD player anytime, anywhere. Take control of your listening environment with this new dimension in electronic audio technology.

Achieve Peak Acoustic Performance

Maxell's HP/NC-II Noise Cancellation Headphones deliver the most uncompromising, high impact, stereo sound.

- Enhanced audibility of distinct tones for a truer audio representation
- Reduced distortion resulting from over-amplification
- Lower non-linear distortion
- Reduced variability in frequency response



AIRLINE PIN TRAVEL POUCH

COLLAPSIBLE

Loaded with Features

- Maxell's noise cancellation technology is incorporated into our HP/NC-II headphones for automatic noise reduction
- Improves frequency response
- Digital-ready stereo headphones
- Comfortable, lightweight and easy to adjust
- Collapsible and compact for portability and easy storage
- Over 50 hours of battery power with 2 AAA batteries (not included)
